BBA Advantage: contributing to everyone's success by ensuring our team's accessibility and proximity

Respecting and honouring its origins is part of BBA Financial Group's values. Founded more than 60 years ago by Mr. Benoît Bouchard, BBA Financial Group has been established on family bases inspired by a humane approach and consolidated by strong and warm relationships. To this day, Mrs. Lise Bouchard, daughter of the founder, follows the same path. The BBA teams, whether

it's the Management team of the Operations team, advocate a professional approach oriented towards openness and availability. For BBA, each person is unique and deserves special attention in order to promote harmonious and constructive relationships.
